 3. Evaluation and Award of Contract
 4. Terms and Conditions of Contract
 5. Technical Specifications
 6. Deliverables and Milestones
 7. Bid Forms and Templates
 8. Annexures
-

Section I – Instructions to Bidders (ITB)

1. Background and Preliminary Information

The objective of the Petroleum Company Portal is to provide: - Easy and reliable access to company information and services. - Contact information and communication channels. - Status updates on projects and operations. - A platform for interaction with customers and stakeholders.

2. Intent of Invitation

Qualified vendors are invited to submit proposals for the design, development, deployment, and maintenance of the official corporate website and portal.

Vendors can propose development using either: - **Razor (ASP.NET Core MVC)** for server-side rendering integrated with .NET backend. - **React / Angular / Modern Frontend Frameworks** for client-side, dynamic, and interactive applications consuming backend APIs, and DB (SQL Server/MySQL).

Both options must meet the technical and functional requirements described in this ITB.

3. Scope of Work

- UI/UX design, responsive website development.
- Key pages: Home, About Us, Services, Fuel Stations, Products, News, Careers, Contact Us.
- Integration of social media, maps, and interactive forms.
- Security measures including SSL.
- Staff training on CMS.
- Vendors must specify which technology stack (Razor or React/Angular) they are proposing.

4. Payment Terms

- Payment milestone-based: Design approval, Development completion, Testing & Deployment, Final Acceptance.
- Payments released upon invoice and company approval.

5. Project Planning

Vendor to submit detailed project plan including organization, development, UAT, deployment, training, risk, and support plans within 1 week of work order.

6. Scope of Content

Primary Content

- About Us, Company Profile, Mission, Vision, Team, Chairman Message.
- Services, Products, Projects, Fuel Stations, News, Events, Careers.
- Contact Us, Location Map, FAQ, Terms & Conditions, Privacy Policy.

Secondary Content

- Advertisement banners, media gallery, related sites, discussion forums, special interest corners, announcements.

7. General Requirements

- Complaint management system with bilingual support.
- Advanced search functionality with metadata and full-text search.
- CMS with content authoring, workflow, publishing, archiving, and media management.

8. Technical Requirements

The technical requirements are summarized in the following table:

Category	Component	Technical Requirement / Standard
Security	SSL & Encryption	Strict HTTPS, TLS 1.3 encryption, and HSTS to prevent man-in-the-middle attacks.
Security	Access Control	Role-Based Access Control (RBAC) for CMS, with two-factor authentication (2FA) for admin panels.
Performance	Hosting & Speed	High-availability cloud hosting (AWS, Azure) with fast page load speeds.
Structure	UI/UX & Mobile	Mobile-responsive design (mobile traffic >50%), clear navigation, and 508 compliance.
Content	Investor Relations	Dedicated, secure, and easily updated section for stock data, financial reports, and ESG data.
Content	Health, Safety, Environment (HSE)	Highly visible HSE policies, sustainability reports, and emissions tracking for ESG transparency.
Functionality	Data Visualization	Interactive maps for assets/fields, real-time commodity pricing widgets, downloadable technical datasheets.
Integration	Third-party Systems	API integration with CRM, ERP systems (SAP/Oracle), E-payment and safety data systems.
Compliance	Data Governance	Compliance with GDPR, ISO 27001, and industry-specific cybersecurity protocols.
Support	Maintenance	24/7 uptime monitoring, regular security patches, and periodic penetration testing.

Vendors must demonstrate compliance with these standards in their proposals.

9. Inspection and Testing

- Vendor to conduct testing and adjustments.
- Project complete upon handover, source code submission, security audit, documentation, and IPR transfer.

Section II – Bid Submission Instructions

- Eligibility: Company registration, experience in petroleum sector, qualified team, financial stability.
 - Submission process: Email or physical, deadlines, number of copies.
 - Bid validity: 90–120 days.
 - Format: Technical proposal + Financial proposal, specifying the chosen technology stack (Razor or React/Angular), database (MS SQL server) and how the vendor meets the technical requirements table.
 - Required documents: Company profile, project references, financial statements, certifications.
 - Pre-bid queries: Timeline and submission procedure.
-

Section III – Evaluation and Award of Contract

- Evaluation: Technical 40%, Financial 30%, Past Experience 20%, Timeline 10%.
 - Technical proposals evaluated separately for Razor and React/Angular solutions, including adherence to technical requirement standards.
 - Clarifications and vendor presentations.
 - Contract awarded to the highest scoring bidder.
 - Right to reject incomplete or non-compliant bids.
-

Section IV – Terms and Conditions

- Contract duration, SLA, termination, confidentiality, intellectual property, warranties, penalties.
-

Section V – Technical Specifications

- Architecture: Razor (server-side MVC) or React/Angular (client-side SPA), Backend API, Database, CMS.
 - CMS Features: Multi-language, media management, workflows.
 - Security & Compliance: See Technical Requirements Table.
 - Accessibility: WCAG 2.1 compliance.
 - Hosting: High-availability cloud servers.
 - Backup and monitoring.
-

Section VI – Deliverables and Milestones

- Design: Wireframes, mockups.
 - Development: Functional website, CMS integration.
 - Testing: UAT reports, performance testing.
 - Deployment: Live website, DNS configuration.
 - Training: Staff manuals, sessions.
 - Final acceptance: Source code, documentation, audit certificate.
-

Section VII – Bid Forms and Templates

- Technical Proposal Template
 - Financial Proposal Template
 - Compliance Declaration
 - Bid Security / Bank Guarantee Form
 - Pre-Bid Query Template
 - Performance Security Form
-

Section VIII – Annexures

- Annexure A: Sample Project Plan / Gantt Chart
- Annexure B: Detailed Scope of Services Table
- Annexure C: Sample Sitemap
- Annexure D: Hardware and Software Requirements
- Annexure E: Reporting Templates

Section VIII – Annexures

These annexures provide ready references and templates to help vendors understand and comply with the project requirements (These annexures are as guideline).

Annexure A: Sample Project Plan / Gantt Chart

Phase	Tasks	Start Date	End Date	Duration	Responsible
1. Planning	Requirement gathering, approvals			5 days	Project Manager
2. Design	Wireframes, UI/UX design			10 days	Design Team
3. Development	Frontend and Backend coding			30 days	Development Team
4. Integration & Testing	API integration, CMS setup, QA			15 days	QA Team
5. Deployment	Hosting setup, Go-live			5 days	DevOps Team
6. Training	Staff training & documentation			5 days	Training Team
7. Handover & Acceptance	Final audit, source code transfer			3 days	Project Manager

Annexure B: Detailed Scope of Services Table

Component	Description	Deliverables
Home Page	Overview, banners, news highlights	Fully responsive home page with dynamic news section
About Us	Company profile, mission, vision, team	Static and editable content in CMS
Services	List of services/products	Dynamic listing with filtering options
Fuel Stations	Locations with maps	Interactive map integration with Google Maps API
News	Company news and announcements	CMS-powered news section, category filter
Careers	Job openings	Apply online form, resume upload
Contact Us	Contact form, map, address	Form submissions stored in DB, email notifications
CMS	Content management system	Authoring, approval workflow, publishing, archiving
Security	SSL, RBAC, 2FA	HTTPS, access control, admin panel 2FA
Integrations	ERP, CRM APIs	Secure REST API connections, data synchronization
HSE & ESG	Policies and reports	Downloadable PDFs, dashboards, and charts
Investor Relations	Reports, stock info	Secure access, easily updatable content
Data Visualization	Maps, charts, widgets	Interactive dashboards for assets, pricing, and datasheets

Annexure C: Sample Sitemap

Annexure E: Reporting Templates

1. Weekly Progress Report

Week	Task Completed	Pending Tasks	Issues / Risks	Responsible	Remarks
[Week 1]					

2. Risk Log Template

ID	Risk Description	Probability	Impact	Mitigation Plan	Owner	Status
R001	Delay in API integration	Medium	High	Allocate additional resources	Dev Lead	

3. Milestone Completion Report

Milestone	Planned Date	Actual Date	Status	Remarks
Design Approval				
Development				
UAT				
Go-live
